## PROFILE

---

Customer-focused IT Support Specialist with over 3 years of experience delivering Tier I & II technical support in high-volume environments. Proven track record of improving issue resolution time, increasing device uptime, and ensuring seamless end-user experiences across Windows, macOS, mobile, and A/V systems. Skilled in incident management, device provisioning, and MDM platforms such as JAMF. Strong troubleshooting ability with a service-first mindset and measurable results in hardware/software support and system optimization.

## EDUCATION

---

**MS Computer Science**  
Western Illinois University

08/2022 – 05/2024  
Macomb, United States

**GPA 3.727/4.00**

- *Relevant Coursework:* Operating Systems, Computer Networks, Computer and Information Security, Data Structures and Algorithms, Software Engineering, Database Systems

**Bachelors of Technology in Computer Science**  
Federal University of Technology Owerri

11/2012 – 11/2017  
Nigeria

## PROFESSIONAL EXPERIENCE

---

**Field Support Service Technician**  
Wynndalco Enterprises

09/2024 – present  
Chicago, USA

- Delivered Tier 1 and Tier 2 support for end users across multiple client locations, achieving a 95%+ first-call resolution rate
- Resolved issues across Windows, macOS, iOS, and Android environments, including hardware failures, OS errors, and connectivity issues
- Managed imaging, deployment, and configuration of endpoints (desktops, laptops, switches, iPads) using MDM tools (JAMF Pro) and Windows Deployment Services
- Handled Active Directory user and group management (password resets, account creation, permission updates)
- Logged and prioritized incidents via ServiceNow, consistently closing tickets within SLA windows
- Conducted onsite network device setup and physical troubleshooting of switches and access points
- Improved IT asset tracking accuracy by 25% through enhanced documentation and hardware audits

**IT Support Specialist / Student IT Manager**  
SODEXO USA – Western Illinois University – Macomb, IL

08/2022 – 05/2024  
Macomb, United States

- Provided hands-on technical support to 10+ campus departments, including help desk operations, printer configuration, and POS troubleshooting
- Supported users with Windows and macOS systems, software installation, network access, and mobile device setup
- Led weekly operations meetings with IT and safety teams, standardizing procedures and improving incident response
- Maintained and supported POS terminals, receipt printers, and AV solutions in campus dining and event venues
- Documented technical processes and knowledge base content for faster onboarding and issue resolution
- Diagnosed local network issues (e.g., DHCP/IP conflicts, switch port failures) and escalated Layer 3 concerns

## IT Support Specialist

SeedFi

06/2020 – 07/2022

Lagos, Nigeria

- Responded to over 50 tickets weekly through phone, email, and remote tools, covering OS, connectivity, and application support
- Supported enterprise environments using G Suite, Microsoft 365, and cloud storage systems
- Installed and maintained laptops, desktops, Chromebooks, and mobile devices across multiple departments
- Provided AV and video conferencing support (Zoom, Teams) in shared meeting spaces and executive offices
- Assisted with onboarding, including new user account setup in Active Directory and provisioning software licenses
- Implemented Office 365 deployment, reducing tech-related productivity issues by 20%

## HelpDesk Associate

CYBERSOC AFRICA

02/2019 – 05/2020

Lagos, Nigeria

- Delivered frontline support for software, network, and hardware incidents in a fast-paced IT service desk environment
- Triageed and escalated critical issues, reducing downtime and ensuring SLA compliance
- Maintained and updated internal documentation and FAQ resources, shortening average resolution time by 25%
- Supported classrooms and training rooms with AV setup (projectors, smartboards, webcam configurations)
